

CASE STUDY

Weinberg Partners helped a private equity/ venture capital firm handle comprehensive accounting and taxation issues

CHALLENGE

- Various investment partnerships and investment companies
- Multiple entities, decentralized operations
- No internal accounting staff

SOLUTION

- Accounting and financial reporting services for investment partnerships
- US and international taxation services

We offer a smart **solutions-based approach** centered around **your company's unique needs.**

Client operates various investment partnerships and management companies. Like many private equity and venture capital enterprises they have multiple entities with decentralized operations, and no internal accounting staff.

If your private equity or VC firm requires cutting edge and personalized comprehensive taxation services, please contact us for a complimentary consultation.

Weinberg Partners CPAs provides periodic accounting and financial reporting services for their investment partnerships, and US and international taxation services, which include all required US tax returns, including for SPACs and SPONSORS, and PFIC reporting, and personal taxation services.
